

Irrigation System Spring Start-Up \$90.00

from...

CENTRAL MN
IRRIGATION

Previously

Same great service from the same great people

This service includes the following:

- Turn water on to the sprinkler system, inspect sprinkler plumbing and vacuum breaker.
- Activate the controller, set watering schedule and test all valves in the system.
- Inspect and adjust the system for proper cover-
- Check the function of all sprinkler heads and their nozzles.
- Make any necessary repairs on site at time of start up.
- Check for system leaks.
